

①反比例の表

x	-3	-2	-1
y	-4	<input type="text"/>	-12

12 -4 -12 12

$\frac{-4}{-3} = \frac{-8}{-3}$

$$y = \frac{a}{x} \rightarrow \underline{\underline{xy = a}}$$

$$\begin{aligned} -2 \times \square &= 12 \\ \square &= 12 \div -2 \\ &= \underline{\underline{-6}}, \end{aligned}$$
